Dear Mr. Kubayanda:

I am a regular user and strong supporter of the USPS and highly value the services. I strongly object to the proposed changes in deJoy's 10 year plan to slow down, cut back and privatize the services. The American people have used and depended on these services as written in our Constitution for over 200 years. If I am not mistaken, the USPS was never meant to be a for-profit organization. I have used this service to complete innumerable contracts over my lifetime as well as sending legal documents, for paying my bills, for acknowledging milestones in my family's and friends' lives, for expressing concern for others and to contact others with my concerns. Have you any idea what receiving a card or letter means to a shut-in?

I would highly recommend deJoy's termination as head of the USPS. He has done nothing but antagonize the American people since his installation by a president who wanted the postal service to serve his own political ambitions. DeJoy slowed the mailing of mail-in ballots and their return in 2020. He destroyed expensive and completely functional USPS equipment and removed mail deposit boxes simply to discourage USPS users, especially voters. Furthermore, deJoy has demonstrated he is neither honest nor transparent regarding his administration of our postal services. He is an embarrassment and needs to go.

Respectfully,

Phylis Priebe
